MEDIA CENTER

An area that serves to satisfy technology needs and facilitate learning

The NRG Productivity Center

The MOD Labs

STAKEHOLDERS

STUDENTS

Studying
Group work
Learning

FACULTY

Teaching
Lecture

ADMINISTRATORS

Purchasing
Updating facilities
Satisfying needs of other stakeholders

STAKEHOLDERS

STUDENTS

FACULTY

ADMINISTRATORS

Primary Users

**Receive the
most benefit**

DATA COLLECTION

DISCOVERING NEEDS

OVERARCHING ISSUES:

**Current customer media
center usage**

Other areas customer use

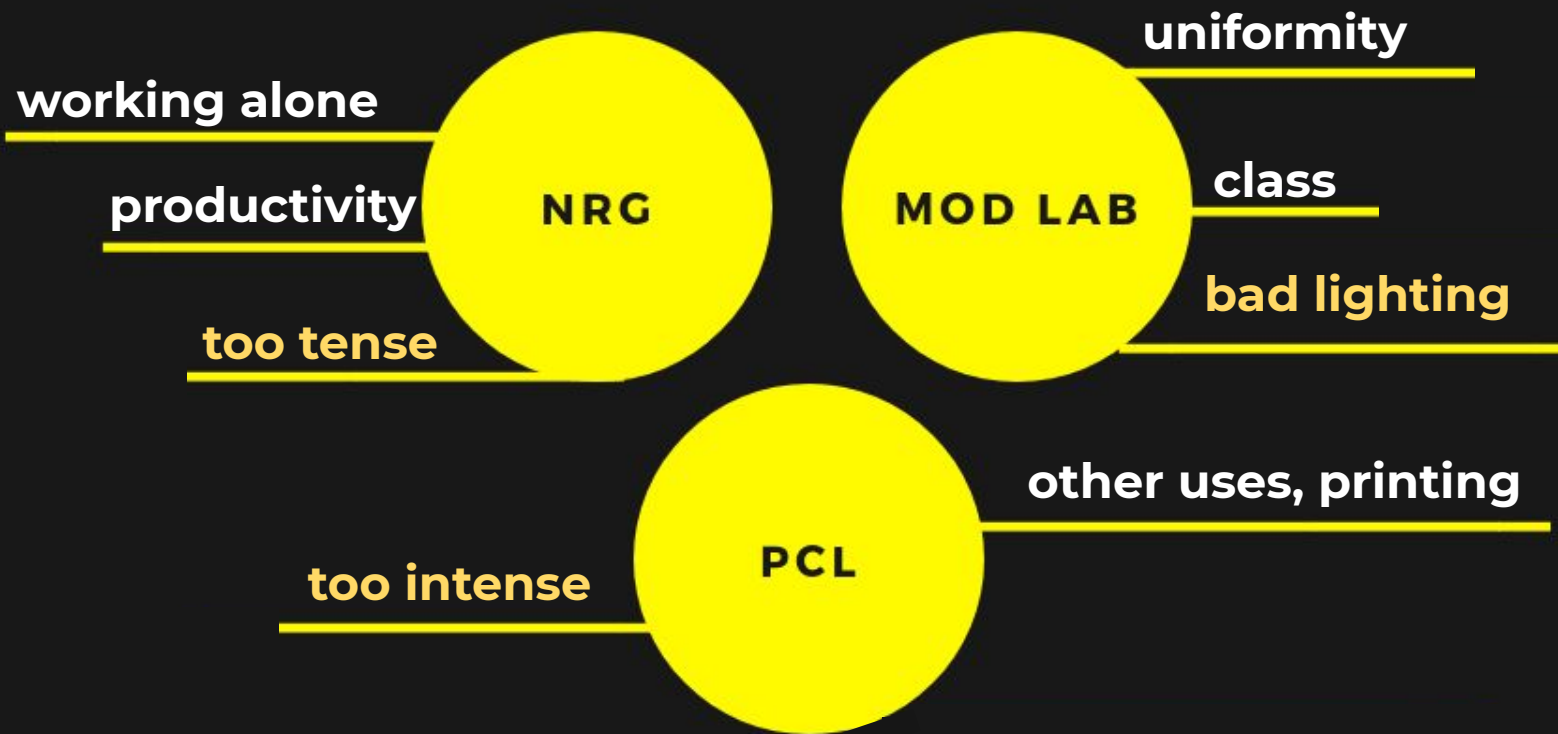

What media centers lack

METHODS:

20 Interviews -
18 Students
2 Professors

**109 Survey
respondents**

MOTIVATIONS

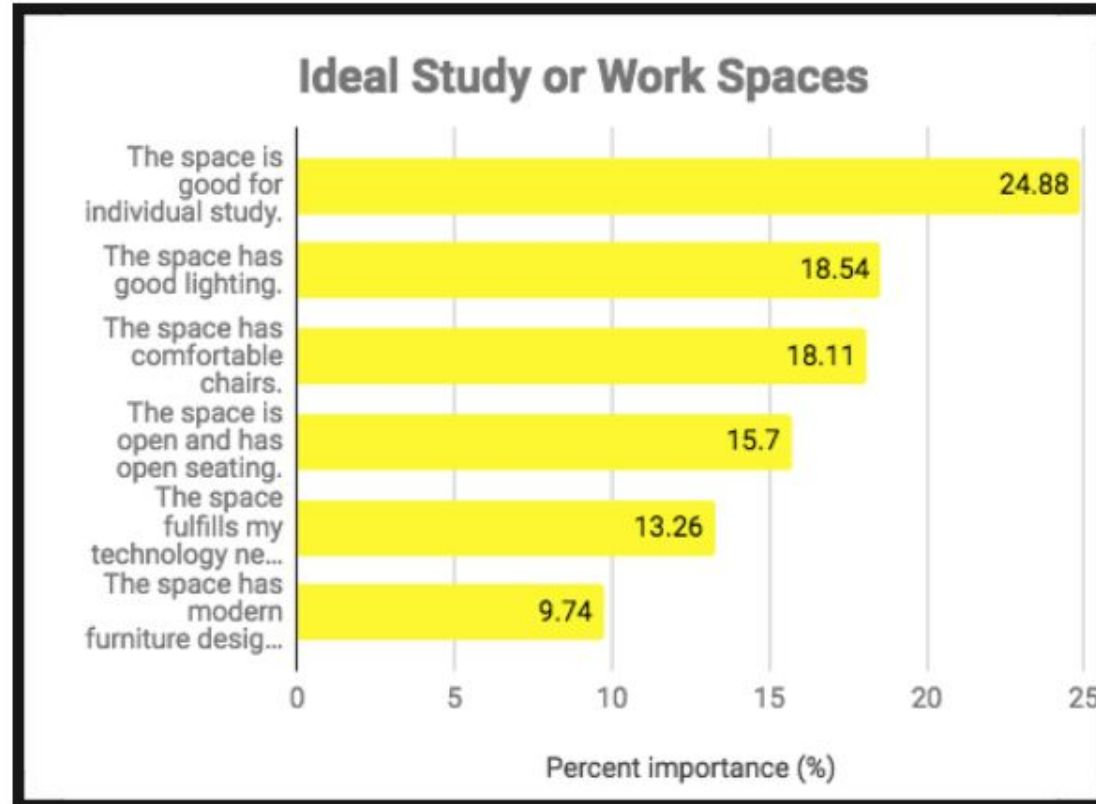

INTERVIEW & SURVEY RESULTS

BASED ON INTERVIEWS:

- Too quiet → tense atmosphere
- Can't collaborate
- Technology is not reliable
- Chairs were uncomfortable, not enough desk space

BASED ON SURVEYS

PRIORITIZING NEEDS

CATEGORY	ATTRIBUTE
MUST HAVES	"The space is good for individual study" (24.88%) "The space has good lighting" (18.54%)
LINEAR SATISFIERS	"The space has comfortable chairs" (18.11%) "The space is open and has open seating" (15.7%)
DELIGHTERS	"The space fulfills my technological needs" (13.26%) "The space has modern furniture design" (9.74%)

CONCEPT GENERATION

NARROWING OUR SCOPE

Focus on the NRG

Direct learning is
constantly changing

Individual study is
more stable

More people use the
NRG

More people were
dissatisfied with
NRG than MOD Lab

CONCEPT

CONCEPT #1 INSPIRATION

Top Image: Steelcase's
Brody Desk

- **Private Working in High-Traffic Settings**

Bottom Image: Teknion's *IE*

- **More open workspaces**

CONCEPT #1: THE MODERN CUBICLE

The Modern Cubicle looks to enhance the workspace by improving natural lighting with translucent barriers without sacrificing the privacy and functionality of a cubicle.

CONCEPT #2 INSPIRATION

Both Images: Steelcase's
Brody Worklounge

- Individual study
 - Comfort
 - Lighting
- Modern & Aesthetics

CONCEPT #2: THE MALLEABLE WALL CUBICLE

The Malleable Wall Cubicle focused on eliminating distractions with adjustable, soundproof walls, providing the user with an optimal isolated workspace.

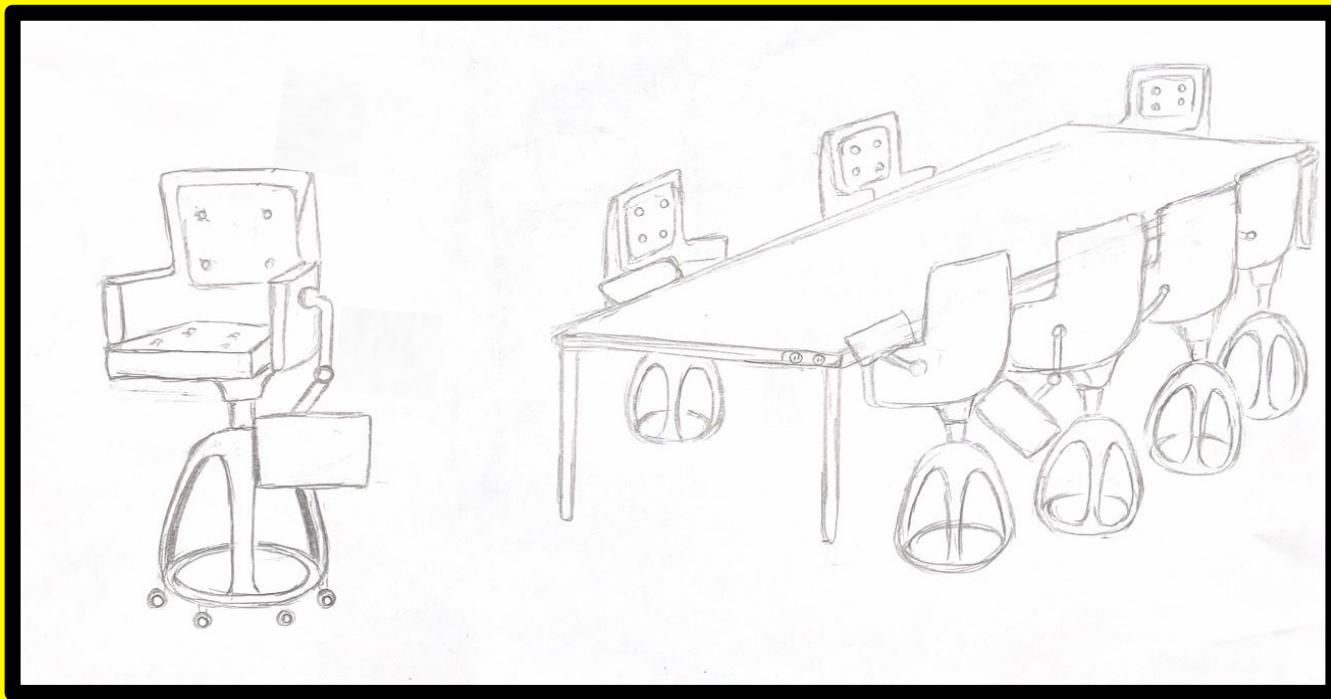

CONCEPT #3 INSPIRATION

Top Image: *Steelcase's
Shortcut With Tripod Base
Table-top Attached*

- Turnable tables for individual study

Bottom Image: *Steelcase's
Shortcut With Tripod Base*

- Group Study

CONCEPT #3: NO CUBICLES BIG TABLES

The Big Table focused on open seating, allowing users to choose how to arrange themselves in the room, whether it is along the table or separate from the table altogether.

CONCEPT TESTING

AFFIRMING ISSUES:

GOALS:

Measure Satisfaction of
Concepts

Identify Users Preferences
on Concepts

Evaluate concept concerns

METHODS:

10 Interviews -
10 Students

48 Survey
respondents

INTERVIEW FINDINGS

Concept 1

- + PRIVACY
- + NATURAL LIGHTING
- INEFFICIENT USE OF SPACE
- LESS SPACE

Concept 2

- + PRIVACY
- + NOISE CANCELLATION
- LACK OF PRODUCTIVITY
- SMALL SPACE
- NOISE CANCELLATION
- LIGHT FIXTURE PLACEMENT

Concept 3

- + ALLOW GROUP WORK
- LESS AVAILABILITY
- LOSS OF PERSONAL SPACE
- ATTACHED TABLE

Concept Testing Insights

Results

Satisfying Needs

	Individual study	Comfort	Furniture Design	Open Seating	Lighting	Tech Needs
Concept 1	51.85%	27.59%	64.52%	32.14%	53.57%	45.71%
Concept 2	48.15%	58.62%	25.81%	14.29%	28.57%	28.57%
Concept 3	0%	13.79%	9.68%	53.57%	17.86%	25.71%

RECOMMENDATIONS

THE MODERN CUBICLE

REVISED

- Personal Light Fixtures
- Set Wall Translucency
- Alternating Work Spaces
- Identical Chairs
